

MAKER IN RESIDENCE

Community Project Proposal

Please fill out the relevant section, save, and submit as part of your [2023 MIR application](#).

If you work in a physical medium (i.e. art that can be hung up or otherwise displayed), please consider the following prompt:

Library 21c has a wall they are hoping to use for an art installation. The size of the wall is 5 ft. by 14 ft. You can use as much or as little of this space as you would like. Please describe what you would create:

You have 30 hours of studio time to involve the community in this project. How will people participate? What tasks will they perform?

If you work in a non-physical medium (i.e., performance, music, sound, or video), please consider the following prompt:

PPLD has many web resources at its disposal, including a YouTube channel, website, and social media. We also host a variety of performance spaces, including the [Knights of Columbus Hall](#), [Library 21c's Venue](#), and smaller community rooms throughout the district. Please describe what you would create and how you would share it with the community:

You have 30 hours of studio time to involve the community in this project. How will people participate? What tasks will they perform?

Please note that these are not the only options for your community project and your answers here will not cement your final project - we just want to learn more about your creative ideas! Thank you for your interest in the Maker in Residence program! Please save your responses and [attach them to your application](#).
